Sint Maarten and the Netherlands jointly implement the Country Package Sint Maarten, based on the Mutual Arrangement for Cooperation on Reforms.

The cover page of the Implementation Agenda and Implementation Report shows the Brown Pelican. This is the national symbol of Sint Maarten, it symbolizes resilience and adaptability. This is what Sint Maarten, supported by the Netherlands, strives for when implementing the reforms as described in the Country Package: a more resilient economy and society. The Implementation Agenda and Implementation Report outline the plans and progress made in the reforms. This process is symbolized by the pencil: the Brown Pelican is ready to set and follow the lines. Lastly, the colors used are the colors of the Sint Maarten National Development Vision 2020-2023 and Beyond: Growing Stronger Together.

INTRODUCTION

On December 22, 2020, Sint Maarten and the Netherlands signed the Country Package Sint Maarten. This Country Package contains a broad palette of reforms. It aims to contribute to the resilience of the economy and society. The Country Package includes reforms in the areas of financial management, public sector, taxation, the financial sector, economy, healthcare, education and rule of law.

The cooperation between Sint Maarten and the Netherlands for the Country Package was given a legal basis on April 4, 2023 in the Mutual Arrangement for Cooperation on Reforms. This arrangement has an initial term of four years with the possibility of extension. Ownership, equality and commonality are the guiding principles of the Mutual Arrangement.

The reforms from the Country Package are periodically elaborated in an Implementation Agenda, with concrete steps to be taken to realize the reforms. Progress is also reported periodically in an Implementation Report. This agenda and report are jointly prepared and adopted by Sint Maarten and the Netherlands. This is the second 2025 Implementation Agenda and Report.

Coherence

Adopted in 2022, the National Development Vision 2020-2030 and beyond (NDV) formulates the national development for Sint Maarten. This vision consists of three themes and 25 goals, namely:

- Theme 1: A compassionate and united society.
- Theme 2: A strong and resilient economy.
- Theme 3: A safe, secured, decisive and independent nation.

These themes and goals find consistency with the Sustainable Development Goals 2020 (SDG). For the realization of the vision of the NDV, the Country Package provides guidance. The multi-year reform package

offered by the Country Package envisions structural support in the elaboration of some of the goals of the NDV and implementation of the priority SDG's in Sint Maarten. Because the NDV is a document created by the people of Sint Maarten for the benefit of the people of Sint Maarten, for that reason this is a guiding document that formulates the end goal and inspires all to bring about a better Sint Maarten.

Summary

In the past period, Sint Maarten has achieved visible progress in implementing the reforms of the Country Package. In the field of strengthening the Human Resources department, after initial delays the Prime Minister confirmed organizational support, which allowed the start of a generic train-the-trainer program for 12–15 civil servants. Strengthening of the HR function is also ongoing.

With regard to digital government, the function book of the ICT department was published in Q2 2025, providing a clear framework for more structured services. Recruitment is underway to fill critical positions, with cyber security identified as a key priority for 2026. Several approved plans of approach have moved into execution. For instance, in the health care sector this leads to strengthened resilience and accessibility. In the gaming sector, concrete steps have been taken to establish a Gaming Authority, launch addiction research and complete an online gaming Quick Scan.

At the same time, important challenges remain. The overall implementation capacity of the government is limited, and the process from planning to financing the projects takes considerable time and slows down the execution. The financial management program is delayed due to technical challenges in the implementation of the new financial software. In addition, the procurement of the new ICT system for Tax Administration has faced setbacks, however important intermediary results have also been accomplished.

Looking ahead, priorities include strengthening financial management, tax transformation, HRM reforms and safeguarding corporate governance in vital institutions. The joint commitment of Sint Maarten and the Netherlands remains central, with ownership, equality and commonality as guiding principles.

Reading guide

This updated Implementation Agenda and Implementation Report follows a set format for each theme chapter, combining planning and progress information.

Each theme begins with an introduction, describing the connection with other national policy documents and the Sustainable Development Goals, and results already achieved are listed. This is followed by a results chain, visualizing the link between intended results and long-term objectives. In the implementation of the Country Package, the focus is on achieving the results in Sint Maarten. The Netherlands supports this through the Temporary Working Organization (TWO). However, a result is not a goal in itself: it is necessary to bring about certain effects and generate impact. By naming the intended effects and impact, the objectives from the Country Package are made concrete.

Underlying assumptions about the achievement of goals are made explicit in this visualization, providing an unambiguous picture of the path toward the goals. On the basis of this result chain, it can be further mapped out to what extent the implemented efforts have the desired effect and whether this brings the goals closer.

Following the result chain, each theme includes an overview of the planned results and accompanying intermediate results. Each result consists of several intermediate milestones that serve to track progress throughout the process. The planned realization dates are also included per intermediate result, ultimately providing insight into the realization of the longer term, planned results.

This document does not yet report on the realization of the effects from the results chain. Making the effects measurable

requires availability of data, a baseline measurement and monitoring capacity. Because there is currently insufficient insight into the availability and quality of the right data, this is not yet reported on.

Dr. Luc F.E. Mercelina,
Prime Minister of Sint Maarten

Activity

Actions, proceedings, work

The work that needs to be done to realize intermediate results. Each Implementation Agenda, activities are concretized and realized accordingly. Activities usually take several weeks to several months.

Coherence

Coherency, cohesion, connection

Connection between the Country Package and national policies and interventions of Sint Maarten (including SDGs).

Effect

Benefit, outcome

Measurable, positive changes that the Country Package aims to realize, caused by the results. It often takes several years to reach the desired level (depending on complexity, ambition and available capacity).

Impact

Goal, purpose, objective

Concise elaboration of the goals of the Country Package for the specific theme and when it is seen as successful.

Intermediate result

Component, deliverable, intermediate step, partial result

Component of a result, and the output of realized activities. Intermediate results are delivered in the interim and updated in each Implementation Agenda. It often takes several months until a year to realize them.

Owner

Commissioning authority

The ministry of Sint Maarten that is responsible for the realization of a theme and underlying results.

Result

Output, product

The elements that are needed to be able to realize certain effects. Results are often combinations of people, processes and systems. It usually takes a year or more to realize results.

Vision

Intentions

Brief description of the vision for the future on this theme, to which the Country Package contributes, based on the objectives of the Country Package.w

SYMBOLS

The following symbols are used in this document to indicate the progress of the Country Package on the level of results and intermediate results.

Ready

This (intermediate) result has been delivered and is ready. It will be moved to the list with “Completed results” in the next version of this report.

On schedule

The progress on this (intermediate) result is on schedule, no further measures or discussion needed.

Point of attention

The progress on this (intermediate) result is not on schedule. There are many, or large, challenges to deal with, which form a risk for timely realization of the planned effects. Therefore, attention and/or decision making by ministers is needed.

Not on schedule

The progress on this (intermediate) result is not on schedule. Underlying activities are facing issues related to planning, quality or scope. These issues are solvable; TWO and the counterparts in Sint Maarten are making arrangements to get back on schedule or discussing new deadlines.

Not started yet

The underlying activities that are supposed to contribute to the realization of this (intermediate) result have not started yet.

Theme

COSTS AND EFFECTIVENESS IN THE PUBLIC SECTOR

INTRODUCTION

Vision

The reforms and measures related to cost and public sector effectiveness aim to: 1) increasing the efficiency of the public sector by reducing the public wage bill (in line with the Caribbean average of 10 percent of GDP) and reducing the cost of the public sector overall, and 2) increase the quality and effectiveness (including execution power) of the public sector.

Coherence

This theme of the Country Reform Package aligns with National Development Vision theme 3 (A safe, secured, decisive and independent nation), goals 14, 17 and 22. It further contributes to the implementation of Sustainable Development Goal 17 (Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development).

<p>Legislation regulating Public Health is in line with international treaties and human rights standards.</p>	<p>↗ Legislative products for the Public Health and Mental Health Ordinances are being drafted at the Kingdom level with VNG-I support. The Council of Ministers has approved the initiation of the IVSA Plan of Approach.</p>	<p>Public Health Ordinance.</p>	<p>↗ The three countries are updating the Public Health Ordinance with a focus on pandemic preparedness and human rights. The process began with the approval of the starting note by the Minister of VSA, followed by the development of draft legislative products. These drafts are now completed and under review by advisory councils. Once reviewed, they will be presented to Parliament for approval. Progress remains on track, but clarification with VNG-I is needed to emphasize that this is a joint effort involving all three countries, not solely Sint Maarten. The workgroup members have started discussions with BZK for the continuation of the legislative trajectory.</p>	<p>Q4 2026</p>
		<p>Updated Mental Health legislation.</p>	<p>↗ The Plan of Approach has been approved. The concept Mental Health framework law is currently being drafted, with a mutual arrangement between the four countries to follow its completion. The process began with the approval of the Plan of Approach by the Council of Ministers (CoM), followed by the approval of the starting note by the Minister of VSA. Once the draft legislative products are fully developed, they will be reviewed by the advisory councils before being presented to Parliament for final approval. VNG-I financing ends the end of September 2025. Other sources to finance the continuation are currently being sought.</p>	<p>Q4 2026</p>

<p>A system for general health insurance.</p>	<p>! The National Ordinance and Decree, including the memoranda of elucidation for the SAHAA, are progressing steadily with a planned introduction date of January 1, 2027. A significant milestone was recently achieved with the receipt of a positive advice from the Social and Economic Council (SER), marking the first time they have provided such an endorsement, though it included several recommendations for consideration. The overarching ambition is to have the legislation reviewed and approved by Parliament by Q4 2025.</p>	<p>Approved National Ordinance and Decrees (LV/LB-Ham) for the SAAHA Sustainable Affordable Access to Healthcare Act former GHI.</p> <p>🕒 The Plan of Approach and starting note have been approved, and the draft legislative products have been developed and reviewed by JZ&W and SER. The next step is to prepare an urgent request for advice from the Council of Advice, after which the legislation will proceed to Parliament for final approval.</p>	<p>Q4 2025</p>
<p>Improved financial model for health.</p>	<p>↗ The financial model for the legislative products is based on the October 2022 version, with updated data from subsequent years now incorporated. Questions about earlier assumptions have been resolved, and the inclusion of 2023 data has further refined the model. The financial model has also been recently updated, confirming that SAAHA remains more sustainable and affordable than the Business-as-Usual scenario, although the difference for the government is now smaller due to the implementation of some measures that were previously planned. Because the output of the financial model is complex and not easy to interpret, efforts will be made to present the results in a more understandable format. Finalizing the report depends on this updated model. Additionally, advice from the Council of Advice has been integrated into the PCCP Phase 2 legislative products, with the report and amended drafts submitted to Juridische Zaken en Wetgeving (JZ&W) for review.</p>	<p>Updated financial model for health.</p> <p>↗ The model has been revised to include 2023 data.</p>	<p>Q4 2025</p>
		<p>Report on the optimization of health finances.</p> <p>↗ The report on the optimization of health finances began with the completed steps of identifying areas for improvement in health expenditures and determining additional sources to finance the health system. Currently, the draft report is being prepared and reviewed by the Minister of VSA, the Council of Ministers (COM), and SZV. The final report is awaiting revision by SZV and VSA before it can be completed.</p>	<p>Q4 2025</p>
		<p>Legislative amendments for the Pharmaceutical Cost Containment Program Phase 2.</p> <p>↗ Several key steps have been completed, including the approval of the Plan of Approach by the Council of Ministers, approval of the starting note by the Minister of VSA, development of draft legislation, and review by advisory councils. Advice from the Council of Advice has been incorporated into the legislative products for the Pharmaceutical Cost Containment Project (PCCP) Phase 2. The revised drafts and supporting report have been submitted to Juridische Zaken en Wetgeving (JZ&W) for review. The project is now in the final legislative phase, with the products being presented to the Council of Ministers for approval.</p>	<p>Q4 2025</p>

<p>Improved data (collection & analysis) for policy development and care allocation.</p>	<p>↗ Several projects are currently ongoing to improve data collection and analysis.</p>	<p>Implementation of a Health Information Management System.</p>	<p>↗ The Plan of Approach has been completed. The implementation of the Health Information Management System is progressing as planned and remains on track for completion by Q1 2027. This includes the rollout of the General Practitioner Information System, the Health Service Bus, the Health Identification Number, and the overall management system.</p> <p>Q1 2027</p>
<p>Executing agencies are prepared for implementation of an improved health financing system.</p>	<p>! The remaining activities for the SAAHA implementation include establishing data sharing between the Census (Civil Registry), SZV, and the Tax Department, initiating preparations by the executing organizations, and finalizing these preparations. However, these steps are currently delayed, as the legislation for SAAHA/GHI is still under review by the Social Economic Council (SER). This delay affects all initiatives linked to the legislation, making their progress dependent on its finalization.</p>	<p>Executing organizations are prepared for the implementation of SAAHA.</p>	<p>🕒 The preparation of executing organizations for the implementation of SAAHA is awaiting the approval of the ordinance and decrees by Parliament before formal activities can begin. A gap analysis has been completed at the Census (Civil Registry), SZV, and the Tax Department, along with the development of a data-sharing plan between these entities. However, the actual data sharing and subsequent preparation activities have been delayed due to pending decisions and the SER's review of the legislation. Once approvals are secured, preparations by executing organizations will begin and be finalized to ensure readiness for SAAHA implementation.</p> <p>Q4 2025</p>
<p>Population is informed and willing to contribute to their health and the health system.</p>	<p>↗ Despite the delay, most activities for phase one have been achieved; however, full completion is awaiting TWO financing approval. Transitioning into the second phase of the SAAHA public awareness campaign also requires approval of the ordinance and decrees from Parliament. The awareness campaign for lifestyle, prevention, and addiction prevention will continue after the prevention pilot and the implementation of the mental health strategic plan.</p>	<p>Public Awareness Campaign on SAAHA.</p>	<p>↗ The campaign strategy has been approved by the Minister of VSA and SZV, a knowledge partner has been contracted, and Phase 1 research has been finalized. Campaign materials have been designed, with the campaign split into two parts: a general segment on healthcare financing and solidarity, which can proceed immediately, and a GHI-specific segment that depends on the adoption of the final ordinance and decree by Parliament. The materials are currently undergoing approval by the Minister of VSA, the Council of Ministers, and SZV. Once approved and financially cleared by the TWO, campaign activities will launch. Transitioning to Phase 2 of the campaign will require the formal approval of the ordinance and decrees by Parliament.</p> <p>Q4 2025</p>
		<p>Public Awareness Campaign for lifestyle interventions, prevention and addiction.</p>	<p>↗ The public awareness campaign for lifestyle, prevention, and addiction prevention is progressing on schedule. <p>Strengthened and restructured provision of patient centered mental health care and addiction services.</p>	<p>↗ This project is Integrated with NRPB project, 4 Landen overleg and initiatives locally.</p>	<p>Execution of the Mental National Health Strategic Plan. ↗</p> <p>The execution of the National Mental Health Strategic Plan is progressing on schedule. The process began with the approval of the Plan of Approach by the Council of Ministers, followed by the development of the Terms of Reference (ToR) and hiring of a project manager, which have been completed. The National Mental Health Plan has been updated and is also on schedule. Next, the Implementation Plan will be approved by the Minister of VSA. The final step, the execution of the Implementation Plan, is planned for Q4 2025, with the timeline adjusted to ensure sufficient preparation and realistic planning.</p>	<p>Q4 2025</p>
<p>Efficient supervision of healthcare.</p>	<p>↗ The full implementation of the IVSA, SAAHA, and Health Care Professionals Registrar projects is required in order to commence an evaluation to assess the effectiveness of these projects on the efficiency of the supervision of healthcare.</p>	<p>Approved National Ordinances and Decrees SAAHA and Registration System for Healthcare Professionals and revised legislation for Inspectorate VSA. ●●●</p> <p>On schedule.</p>	<p>Q1 2027</p>
<p>Healthcare professional and institution planning based on assessed needs.</p>	<p>↗ This project is being worked on in the 4 Landen overleg with the local initiatives.</p>	<p>Manpower and healthcare institution planning. ↗</p> <p>The process involves several key steps, starting with determining the frequency of planning activities and making legislative adjustments if necessary. It includes identifying activities for manpower and healthcare planning, defining data requirements, and assessing available data to support care needs-based planning. A strategy will then be developed to optimize data usage and planning outcomes. Standard Operating Procedures (SOPs) will be documented to ensure consistency, followed by launching the next planning cycle with stakeholder engagement. The final phases focus on data gathering and detailed data analysis to support effective manpower and healthcare institution planning.</p>	<p>Q1 2027</p>

<p>Quality Assurance of healthcare professionals and processes of registration and monitoring mechanisms.</p>	<p> The initial stages of this project have started and it remains on track for realization by Q1 2027. The implementation of this registration system will occur after the legislation is approved by Parliament.</p>	<p>Approved National Ordinance and Decree (LV/LB-Ham) for a registration system for healthcare professionals.</p> <p> The Plan of Approach has already been approved by the Council of Ministers, marking the first milestone as completed. The National Ordinance and Decree (LV/LB-Ham) for a registration system for healthcare professionals is progressing on schedule and is expected to be completed by Q1 2027. The next steps, which are currently on track, include the approval of the starting note by the Minister of VSA, the development of draft legislative products, their review by advisory councils, and ultimately, the presentation and approval of the legislative products by Parliament.</p>	<p>Q1 2027</p>
		<p>Registration system for healthcare professionals.</p> <p> The development of the system is dependent on the approval of the Healthcare Professionals legislation. Key steps include identifying existing quality registers that can be used on Sint Maarten, adapting these registers for local use, and updating legislation to support their implementation. Additionally, existing processes for assessing and registering healthcare professionals will need to be adapted. The process will begin with the approval of the Plan of Approach by the Council of Ministers.</p>	<p>Q1 2027</p>
<p>Quality Assurance of healthcare providers: structure, process and outcome parameters.</p>	<p> Currently not a high priority considering the other ongoing legislative initiatives.</p>	<p>Updated National Ordinance and/or Decrees (LV/Lbam) regulating healthcare institutions (if necessary).</p> <p> The project is not a high priority right now and has not started.</p>	<p>Q1 2027</p>

<p>Lifestyle interventions, prevention and addiction integrated in the reimbursed basic package, organization and practice of care.</p>	<p> Pilot prevention project plan has been drafted including outcomes and measured indicators. A draft plan of approach was submitted for feedback to TWO for measures to help support the eventual integration of lifestyle interventions, prevention and addiction in the reimbursement package and practice of care.</p>	<p>Business case for the reimbursement of lifestyle interventions and preventative measures.</p> <p> A prevention pilot was launched in August 2025, with its outcomes intended to guide the development of reimbursable lifestyle interventions. The timeline for this initiative has been adjusted to Q3 2026. Key activities include identifying suitable lifestyle interventions and preventive measures, determining their costs, and assessing their financial and social benefits, as well as the return on investments. The project also focuses on exploring how these interventions can be integrated into current practices, establishing quality indicators, and creating a comprehensive plan for implementation. Additional steps involve training healthcare professionals, establishing contracts with them to deliver these interventions, and continuously monitoring their effects to ensure effectiveness and sustainability.</p>	<p>Q1 2026</p>

<p>A comprehensive review of the system of supervision (laws and regulations, supervisory policy) in the financial markets is being conducted by an external independent party. Based on the results of this review, measures are being formulated to address shortcomings.</p>	<p>●●● As part of the agreements under the Ennia Resolution (i.e., the Outline Agreement dated December 15, 2023 and related State Motions), necessary reforms to strengthen financial sector supervision have been and will be implemented by the CBCS, taking into account IMF advice to the extent possible. The quality of the reforms implemented in the supervisory and regulatory framework can be monitored through a Financial Sector Assessment Program (FSAP), which CBCS will have the IMF conduct in 2024. In view of the independent position of central banks of Aruba, Curacao and St. Maarten, the Curacao Land Package relies on active monitoring by the IMF and possibly in the second instance the deployment of regular monitoring tools as a power holder or through the SB of the CBCS.</p>	-	-	As part of the agreements under the Ennia Resolution (i.e., the Outline Agreement dated December 15, 2023 and related State Motions), necessary reforms to strengthen financial sector supervision have been and will be implemented by the CBCS, taking into account IMF advice to the extent possible.
